Projects

1. Gym Membership Maintenance App

React – Frontend , Express and Mongo – Backend

Role: Full-stack development

- It is a multi-tenant **gym management system** with role-based access for managing members, trainers, and memberships.
- Implemented membership expiry tracking with reminders; designed for future features like workout and diet planning.

2. Stock Entry Mobile App

React Native – Mobile

Role: Frontend Developer with Backend Logic Contribution

- Built a QR-based stock entry system with grid selection.
- Implemented **duplicate submission prevention** using a unique UID (user ID + random token) stored temporarily on the backend.
- Designed a logic to block rapid multiple taps, ensuring **accurate single-time submissions**.

3. Textile Pricing and Notification App

React – Web

Role: Full-Stack Contributor on Frontend and Notification Integration

- Developed a yarn rate request & approval flow with **real-time push notifications** using Firebase Cloud Messaging (FCM).
- Managed FCM token lifecycle (generate → store → send), enabling **browser-independent** alerts.
- Created a **dynamic MultiWarp form** for yarn costing with real-time warp/weft calculations.

4. Mobile HR Attendance Solution

React Native – Mobile

Role: Lead Developer

- Enabled **attendance, leave, and permission submissions**, with admin approval flows.
- Integrated **location-based punch in/out**, supporting WFH and branch attendance.
- Developed **OTP and PIN-based login security**, and **PDF export** for leave reports.

5. Jewellery Application

React & React Native – Web & Mobile

Role: Full-Stack Developer

- Built a **QR-based jewellery inventory & sales system** with dynamic QR generation and scanning.
- Implemented **cart-based purchases**, customer auto-fill, and **PDF invoice generation**.
- Added **item-wise and customer-wise sales reports** with **PDF/Excel export support**.

6. Reports Application

React – Web

Role: Frontend Engineer

- Developed a reporting tool covering **50+ company modules** with date-based filters.
- Created a **universal, reusable PDF generator** component to handle 4 types of report layouts with flexible date configurations—**cutting down redundancy** and boosting development speed.
